from federal income tax. Hope business houses and individual citizens wound up their federal returns only a week ago. The dollar total is a heavy burden, whether you are rich, middle-class, or poor, for each of us shares the tax bill of all the businesses we trade with.

For instance, I note about my own business that the total federal income tax paid by this house the tax on the corporation's earnings, the combined withholding tax of all its employes, and the individuad tax paid by my partner and myself on such dividends as we received from the business - the total of this federal income tax amounts to about 16 cents on every dollar of business The Star did in

Do you complain about a 2 per cent state sales tax? Well, the federal "take" is many times that, no matter what you call it.

Taxes are necessary, and most indeed necessary if we are to keep America armed and free, And no one seriously minds paying even today's exhorbitant taxes as long as goes to the jury. he feels they are being levied fair-

me tells a different story. It is with the knowledge that his acthe March bulletin from the count contained only \$4.49. Research Department of the National Tax Equality association, 231 S. LaSalle st., Chicago 4, Ill. And it wrote a \$1,400 personal check on of 25 regional co-operatives."

quotes figures which it says "were son to apersonal check. gathered by the Co-operative the United States government."

"Of the 25 surveyed by the FCA, only 7 pay any federal income tax on their corporate profits. Most of these pay merely a 'token' tax. The other 18 large regional co-ops pay no income tax at all on their corporate profits.

The percentage of income tax paid by the 25 regional co-ops surveyed is only 6.4 per per cent on net corporate profits of \$38,207,168 - or \$2.440.815. Private business in direct competition with them and making the same total profits, would have been required to pay 51.6 per cent in:

federal income taxes - or \$19,735,715. 'The 25 co-operatives studied by the FCA carned net income of \$38,207,167 in 1952, the last year for which accurate figures are available. They paid out in actual cash only 36.4 per cent of this profit in 'patronage dividends' and dividends on common and preferred stock to their member co-ops -- or \$13,922,163. They kept, tax-free or nearly so, 57.2 per cent - or \$21,844,189, to be plowed back into the business for purposes of expansion, entering new lines of business, or establishment of reserves. Thus can be seen the tremendous advantage given them by their ability to convert what ordinarily would be tax payments to the federal treasury into capital invest-

ment. surplus and reserves." Every new machine this newspaper buys, and evrey dollar that will go into our building remodelon which the newpaper corporation direction of Mrs. Eva Reynerson. ing this year, represents reserves on which the newpaper corporation of wirs. FOR **PASSING** SWITCH TO NEW TOTAL POWER **ESSO EXTRA**

Now try the best gasoline you can buy...

"TOTAL POWER" ESSO EXTRA

STOP USING MOTOR OILS THAT CAN CAUSE "KNOCKING"! CHANGE TO NEW UNIFLO!

...and get up to 7% more gasoline mileage, too!

Unific helps prevent engine deposits that can cause knocking and can waste gasoline. The Esso laboratories first proved and automotive engineers now agree that motor oils as well as gasoline can cause such deposits. Unifico, the first year-round, heavyduty motor oil has been specially developed to help prevent these deposits.

NEW CAR OWNERS: UNIFLO will help keep your now engine clean and knock-free...will actually increase

OLDER CAR OWNERS: UNIFLO will check deposits that cause knock.

UNIFLOAND "TOTAL POWER" The best POWER LAND Esso Extra Casoline give quickest cold-weather starting. They're the best Power.
Team you can buy! See your. Esso dealer today!

LOOK FOR THE CAN WITH THE GOLD BANE

TOTAL POWER means:

● PEAK OCTANE POWER to kill off knocks and pings ● POWER for quick starting in any weather • POWER for fast warm-up • POWER to resist cool weather stalling • POWER to take steep hills in stride • POWER to pick up swiftly from a standstill • POWER to get the most possible working horsepower from any engine under today's all-round driving conditions

KNOCK AND PING in millions of cars are completely stopped by the peak octane power of this great new gasoline, particularly in the overwhelming majority of new cars and especially those with high-compression engines.

FULL PERFORMANCE is made possible for many other new cars which now have their sparks deliberately retarded to prevent

SMOOTH, DEPENDABLE GET-AWAY from a standing start

or for passing is provided without knock. TOTAL POWER is controlled power and gives you greater safety under all-round driving conditions.
